

Design of a Wideband X-Degree Linear Polarizer using a Semi-Analytical Method

Journal:	<i>Microwave and Optical Technology Letters</i>
Manuscript ID	Draft
Wiley - Manuscript type:	Research Article
Date Submitted by the Author:	n/a
Complete List of Authors:	Abdouni-Abdallah, Wafa; Emirates Technology and Innovation Center (ETIC), Khalifa University (KU), Communication & Electronics Khan, Muhammad Saeed; Emirates Technology and Innovation Center (ETIC), Khalifa University (KU), Communication & Electronics Konstantinidis , Athanasios ; Emirates Technology and Innovation Center (ETIC), Khalifa University (KU), Communication & Electronics
Keywords:	Wideband Polarizer, X-degree Linear Polarizer, Multilayer Structure, Transmission Line Equivalent Circuit, Genetic Algorithm
